ABOUT CCA

Contributions from the 5th Annual "Fishsticks" Golf Tournament will go a long way. Here's how:

Proceeds Benefit:

Coastal Conservation Association (CCA) is a non-profit organization comprised of 17 coastal state chapters spanning the Gulf of Mexico and Atlantic seaboard. CCA's strength is drawn from the tens of thousands of recreational saltwater anglers who make up its membership. From South Texas to the upper reaches of Maine, CCA's grassroots influence is felt through state capitals, U.S. Congress and, most importantly, in the conservation and restoration of our coastal marine resources.

CCA has been active in virtually every national fisheries debate since 1984 and has participated productively in state and federal fisheries management issues for longer than two decades. CCA continues to operate as a three-tiered organization, affecting issues on the local, state and national levels.

CCA's unmatched breadth and depth of volunteer involvement has made it the largest marine conservation group of its kind. Its grassroots network and unique combination of membership, fundraising and advocacy have enacted positive change on all levels of coastal marine conservation and management. When called into action, the impact of CCA's grassroots machine is unparalleled.

Through broad-based recreational angler support, a strong legal and legislative presence, more than 30 years of experience and an unwavering vision for the future of U.S. and global marine resources, CCA will continue to battle for the health and longevity of our coastal fisheries and for recreational anglers' interests in them.

We are looking forward to seeing you at the event and if for some reason you cannot make it, we hope that you will consider contributing to this very worthwhile cause!
